

*DEPARTMENT OF DEFENSE TASK FORCE
ON THE CARE, MANAGEMENT, AND TRANSITION OF
RECOVERING WOUNDED, ILL, AND INJURED MEMBERS OF THE ARMED FORCES*

Trevor Conrad, M.S.

Mr. Trevor Conrad has conducted applied behavioral research within the defense sector for the past eight years. He has been heavily involved in Army-specific research. Recent projects have produced computer-based training on contemporary Soldier skills, interactive multimedia instruction on leadership, and tools for facilitating organizational change within Army brigades. Mr. Conrad was also involved in the comprehensive evaluation of the Minnesota Army National Guard Pilot Yellow Ribbon Reintegration Program.

Mr. Conrad completed 10 years of service between enlisted and officer branches in the U.S. Army National Guard. He held company-level and staff assignments in combat service support and combat support units. His military experience includes serving as a Battalion Intelligence Officer in support of combat operations during Operation Iraqi Freedom. His understanding of the organizational, training, and operational challenges that Soldiers face is an asset to interacting with the Army population and exploring research issues. Mr. Conrad holds an M.S. in Industrial/Organizational Psychology from Illinois State University.
